

Assessing the impacts of environmental change on the West Australian bee industry

The natural landscape

People of the bee industry

Decisions

We would like **your opinion** as a beekeeper to help us better understand your industry.

- How do you **interact with the natural landscape** to achieve desired apiary production?
- What **pressures** are affecting your industry?
- Do you have thoughts on how we can manage such pressures to **enhance sustainability** of the industry?

Seeking volunteers

Would you be willing to share your views in an interview and/or online survey?

Confidentiality is assured under the University of Western Australia's ethics protocol

How important are these components for food production, your livelihoods and wellbeing?

If you are interested in volunteering please send the lead researcher **Vidushi Patel** an email at vidushi.patel@research.uwa.edu.au or phone her on 0406187133. Thank you.
